## In brief

Date	Changes and actions
Pre 30 June 2018	<ul style="list-style-type: none"> <li>• Pay superannuation to deduct contributions in the current financial year.</li> <li>• Complete a stocktake where required (see Do you need to do a stocktake?).</li> <li>• Write off bad debts and scrap any obsolete stock or plant and equipment.</li> <li>• Ensure any inter-entity management fees have been raised.</li> </ul>
1 July 2018	<ul style="list-style-type: none"> <li>• Personal tax bracket change - The top threshold of the 32.5% personal income tax bracket will increase from \$87,000 to \$90,000</li> <li>• GST applies to overseas sales of low value goods to Australian consumers in Australia, where the goods have a customs value of less than or equal to AUD\$1,000.</li> <li>• Taxable payments annual reporting extended to businesses providing courier services or cleaning services.</li> </ul>
14 July 2018 (on or before)	<ul style="list-style-type: none"> <li>• PAYG Payment Summaries provided to any staff.</li> </ul>
28 July 2018	<ul style="list-style-type: none"> <li>• Quarterly super guarantee payment due (1 April – 30 June).</li> </ul>
14 August 2018	<ul style="list-style-type: none"> <li>• Annual PAYG Payment Summary lodged with the ATO. Penalties apply for late lodgement.</li> </ul>
28 August 2018	<ul style="list-style-type: none"> <li>• Taxable payments annual report due for building &amp; construction industry</li> </ul>
23 May 2019	<ul style="list-style-type: none"> <li>• Proposed super guarantee amnesty ends.</li> </ul>
30 June 2019	<ul style="list-style-type: none"> <li>• \$20k instant asset write-off ends (reduces back to \$1,000).</li> </ul>
1 July 2019	<ul style="list-style-type: none"> <li>• Taxable payments annual reporting extended to security providers and investigation services; road freight transport; and computer system design and related services.</li> <li>• Single touch payroll – all employers will be required to use standard business reporting-enabled software from 1 July 2019 to report payments such as salaries and wages, PAYG withholding and superannuation information.</li> </ul>

## What's new

### Personal income tax cuts and the low and middle income tax offset

The Government has announced a seven year income tax plan. The plan benefits low and middle income earners in the first few years before expanding out to a broader restructure of the tax rates and brackets for everyone.

Tax rate	Tax thresholds			
	Current	From 1 July 2018	From 1 July 2022	From 1 July 2024
0%	\$0 - \$18,200	\$0 - \$18,200	\$0 - \$18,200	\$0 - \$18,200
19%	\$18,201 - \$37,000	\$18,201 - \$37,000	\$18,201 - <b>\$41,000</b>	\$18,201 - \$41,000
32.5%	\$37,001 - \$87,000	\$37,001 - <b>\$90,000</b>	<b>\$41,001 - \$120,000</b>	\$41,001 - <b>\$200,000</b>
37%	\$87,001 - \$180,000	<b>\$90,001</b> - \$180,000	<b>\$120,001</b> - \$180,000	-
45%	>\$180,000	>\$180,000	>\$180,000	<b>&gt;\$200,000</b>
Low and middle income tax offset		Up to \$530	-	-
LITO	Up to \$445	Up to \$445	Up to \$645	Up to \$645

From 1 July 2018:

The top threshold of the 32.5% personal income tax bracket will increase from \$87,000 to \$90,000.

From 1 July 2022:

The top threshold of the 19% personal income tax bracket will increase from \$37,000 to \$41,000.

The top threshold of the 32.5% personal income tax bracket will again increase from \$90,000 to \$120,000.

The Low Income Tax offset will increase from \$445 to \$645. The increased Low Income Tax Offset will be withdrawn at a rate of 6.5 cents per dollar between incomes of \$37,000 and \$41,000, and at a rate of 1.5 cents per dollar between incomes of \$41,000 and \$66,667.

From 1 July 2024:

The 37% tax bracket will be removed.

The top threshold of the 32.5% personal income tax bracket will again increase from \$120,000 to \$200,000.

Dovetailing into the tax bracket change is the introduction of the Low and Middle Income Tax Offset for those with taxable incomes up to \$125,333. The offset is a non-refundable tax offset that you receive when you lodge your income tax return. That is, the offset is applied against any tax owing and only applies if you are not receiving a refund.

Taxable income	Low and Middle Income Tax Offset (LIMITO)
\$0 - \$37,000	Up to \$200
\$37,000 - \$48,000	Offset increase of 3 cents per dollar up to \$530
\$48,000 - \$90,000	Up to \$530
\$90,001 to \$125,333	Offset phases out at a rate of 1.5 cents per dollar

## Medicare levy low-income threshold

The Medicare levy low-income thresholds for singles, families, and seniors and pensioners will increase to take into account of movements in the CPI.

	2016-17	2017-18
Singles	\$21,655	\$21,980
Families	\$36,541	\$37,089
Single seniors and pensioners	\$34,244	\$34,758
Family threshold for seniors and pensioners	\$47,670	\$48,385
Each dependent child or student (increase to family threshold)	\$3,356	\$3,406

## Superannuation guarantee amnesty

The Government has announced an amnesty for employers that have fallen behind with superannuation guarantee (SG) payments to “self-correct”. The amnesty applies to employers that have underpaid or not paid SG for any period from 1 July 1992 up to 31 March 2018. Under the amnesty, the penalties that normally apply to late payments are waived as is the administration fee, and the SG payment is deductible - normally employers lose the ability to deduct superannuation payments where SG is late.

While the legislation dealing with the amnesty is not yet law, the time period for taking advantage of the amnesty is due to end on 23 May 2019 and it will be important to identify any potential problem areas as soon as possible so that appropriate action can be taken.

If your business has engaged any contractors during the period covered by the amnesty, then the arrangements will need to be reviewed as it is common for workers to be classified as employees under the SG provisions even if the parties have agreed that the worker should be treated as a contractor. You cannot contract out of SG obligations.

If you have not undertaken a payroll audit or an audit of rates paid to employees, you should do this within the next 12 months.

The amnesty applies to voluntary disclosures. The amnesty does not apply to amounts that have already been identified as owing or where the employer is subject to an ATO audit.

## \$20k accelerated deductions for small business extended (again)

The ability for small business entities to claim an immediate deduction for assets costing less than \$20,000 has been extended until 30 June 2019.

From 1 July 2019, the immediate deduction threshold will reduce back to \$1,000.

There are no limits to the number of times you can use the immediate deduction assuming your cashflow supports the purchases.

If your business is registered for GST, the total cost of the asset at the end of the year when the asset was first used needs to be less than \$20,000 after the GST credits that can be claimed by the business have been subtracted from the purchase price. If your business is not registered for GST, it is the GST inclusive amount.

Second hand goods are also deductible. However, there are a number of assets that don't qualify for the instant asset write-off as they have their own set of rules. These include horticultural plants, capital works (building construction costs etc.), assets leased to another party on a depreciating asset lease, etc.

If you purchase assets costing \$20,000 or more, the immediate deduction does not apply but small businesses have the ability to allocate the purchase to a pool and depreciate the pool at a rate of 15% in the first year and 30% for each year thereafter.

## Single touch payroll

Employers with 20 or more employees at 1 April 2018 must use standard business reporting-enabled software from 1 July 2018. The head count for '20 employees' includes full-time, part-time, casuals (who worked any time during March 2018), employees based overseas, or on paid or unpaid leave. Directors and independent contractors are excluded from the count.

STP is currently voluntary for businesses with less than 20 employees although proposed reforms seek to extend the reporting system to all employers by 1 July 2019, regardless of the number of employees.

## Payments to contractors

From 1 July 2019, security providers and investigation services, road freight transport, and computer system design and related services businesses will need to lodge additional reports to the Australian Taxation Office about payments made to contractors (individual payments and total for the year). While this is a year away, if your business is affected by the change, think about what systems you will need to track and measure these payments and collect the required information from contractors.

From 1 July 2018, cleaning and courier businesses are required to lodge taxable payment reports with the first report due on 28 August 2018.

## GST on property developments

From 1 July 2018, the way GST is collected on sales of newly constructed residential properties or new subdivisions will change. Rather than GST being collected when the vendor lodges their activity statement, the purchaser is required to pay a GST amount to the ATO, generally on or before settlement. The vendor must notify the purchaser in writing that the GST needs to be paid to the Commissioner and advise the amount that must be paid.

In most situations, the amount will be 1/11th of the contract price. Where the margin scheme is used, it is 7% of the contract price. Where the transaction is between associates, it is 10% of the GST-exclusive market value.

Notification rules will also apply to vendors who are selling residential dwellings or land, even if the transaction does not trigger a GST liability.

## Tax office targets

### Work related deductions

Work related deductions are important to many small businesses. But, the ATO is unhappy about the level of work related deductions claimed in Australia. In general, you need to be able to prove that you incurred the expense (with receipts etc), and the expense was not private.

If the level of work related expenses you claim is higher than your industry standard, you can expect to be contacted by the ATO to substantiate the claim. If you have a high level of expenses, it's important to have all of your paperwork in place. Where you do not have evidence for your claim it is likely that the ATO will seek to disallow the deduction being claimed. Key areas include:

- **Cars** - You can only claim the business portion of expenses, you cannot generally claim for travel between a normal place of work and your home. Special rules apply to some utes and commercial vehicles and where a vehicle is being used to transport bulky tools and equipment.
- **Clothing** - You can only claim a deduction for expenses for occupation specific clothing, protective clothing and footwear (like steel cap boots if you are in construction or high-vis vests), uniforms (with logos or made specifically for the business). If you wear certain clothes to work but it is not a uniform (like tradesman shorts), you cannot claim the clothes or the cost of cleaning them.
- **Travel expenses** - Travel expenses are a major area of focus this tax time. If you travel for work, it will be essential that you get these claims right. If you have a high level of travel expenses, we will work with you to understand these claims and ensure the tax treatment is correct. Please ensure you keep as many receipts as possible and in some cases you may also need to keep a travel diary or log book.
- **Working from home** - Any expenses you claim for home office expenses need to be in proportion to your use of the home for work purposes. If you work from home you may be able to claim items such as phone expenses, running costs for your home, and equipment. If your home is a place of business and you are entitled to claim a deduction for interest expenses or rent, then this will generally impact on your ability to claim the full main residence exemption from CGT when you sell the home.
- **Self-education** - Any study you claim as self-education must be connected to the income you are currently earning (either to maintain or improve your specific skills or knowledge) or is likely to result in increased income from existing income earning activities. Merely doing a course while working full time does not make the course deductible.

## Financial house-keeping

### Before you roll-over your software...

Before rolling over your accounting software for the new financial year, make sure you:

- Prepare your financial year-end accounts. This way, any problems can be rectified and you have a 'clean slate' for the 2018-19 year. Once rolled over, the software cannot be amended.
- Do not perform a Payroll Year End function until you are sure that your payment summaries are correct and printed. Always perform a payroll back-up before you roll over the year.

## Employee reporting

### PAYG payment summaries

You need to provide all of your staff with their PAYG Payment Summary on or before 14 July 2018. This includes any staff that left your employment during the 2017-18 financial year.

If we prepare your Payment Summaries for you, please provide us with the data file from your accounting software.

The ATO imposes penalties for the late lodgement of PAYG Payment Summary Statements.

The annual PAYG Payment Summary Statement for the year ending 30 June 2018 needs to be lodged with the ATO on or before 14 August 2018. However, if we are preparing your Payment Summary for you and you only employ family members in your business (closely held employees), you may be eligible for an extension.

### Reportable Fringe Benefits on PAYG Payment Summaries

Where you have provided fringe benefits to your employees in excess of \$2,000, you need to report the FBT grossed-up amount on their PAYG Payment Summary. This is referred to as a 'Reportable Fringe Benefit' (RFB) amount and a label is included on the PAYG Payment Summary for this purpose.

## Do you need to do a stocktake?

Businesses that buy and sell stock generally need to do a stocktake at the end of each financial year as the increase or decrease in the value of stock is included when calculating the taxable income of your business.

If your business has an aggregated turnover below \$10 million you can use the simplified trading stock rules. Under these rules, you can choose not to conduct a stocktake for tax purposes if the difference in value between the opening value of your trading stock and a reasonable estimate of the closing value of trading stock at the end of the income year is less than \$5,000. You will need to record how you determined the value of trading stock on hand.

If you do need to complete a stocktake, you can choose one of three methods to value trading stock:

- **Cost price** - all costs connected with the stock including freight, customs duty, and if manufacturing, labour and materials, plus a portion of fixed and variable factory overheads, etc.
- **Market selling value** - the current value of the stock you sell in the normal course of business (but not at a reduced value when you are forced to sell it).
- **Replacement value** - the price of a substantially similar replacement item in a normal market on the last day of the income year.

A different basis can be chosen for each class of stock or for individual items within a particular class of stock. This provides an opportunity to minimise the trading stock adjustment at year-end. There is no need to use the same method every year; you can choose the most tax effective option each year. The most obvious example is where the stock can be valued below its purchase price because of market conditions or damage that has occurred to the stock. This should give rise to a deduction even though the loss has not yet been incurred.

## Reduce your risks & minimise your tax

### Top tax tips

#### 1. Write-off bad debts

To be a bad debt, you need to have brought the income to account as assessable income, and given up all attempts to recover the debt. It needs to be written off your debtors' ledger by 30 June. If you don't maintain a debtors' ledger, a resolution confirming the write-off is a good idea.

#### 2. Review your asset register and scrap any obsolete plant

Check to see if obsolete plant and equipment is sitting on your depreciation schedule. Rather than depreciating a small amount each year, if the plant has become obsolete, scrap it and write it off before 30 June. Small business entities can choose to pool their assets and claim one deduction for each pool. This means you only have to do one calculation for the pool rather than for each asset.

#### 3. Bring forward repairs, consumables, trade gifts or donations

To claim a deduction for the 2017-18 financial year, consider paying for any required repairs, replenishing consumable supplies, trade gifts or donations before 30 June.

#### 4. Pay June quarter employee super contributions now

Pay June quarter super contributions this financial year if you want to claim a tax deduction in the current year. The next quarterly superannuation guarantee payment is due on 28 July 2018. However, some employers choose to make the payment early to bring forward the tax deduction instead of waiting another 12 months.

Don't forget yourself. Superannuation can be a great way to get tax relief and still build your personal wealth. Your personal contributions need to be received by the fund before 30 June to be deductible.

#### 5. Realise any capital losses and reduce gains

Neutralise the tax effect of any capital gains you have made during the year by realising any capital losses – that is, sell the asset and lock in the capital loss. These need to be genuine transactions to be effective for tax purposes. It may be possible to contribute assets with unrealised losses to superannuation in order to do this.

#### 6. Raise management fees between entities by June 30

Where management fees are charged between related entities, make sure that the charges have been raised by 30 June. Where management charges are made, make sure they are commercially reasonable

and documentation is in place to support the transactions. If any transactions are undertaken with international related parties then the transfer pricing rules need to be considered and the ATO's documentation expectations will be much greater. This is an area under increased scrutiny.

## What we need from you

This is a general list of what to have ready when we next meet with you:

- Accounts data file (MYOB, Quickbooks, access to Xero)
- Debtors & creditors reconciliation
- Stock take if applicable (or if your business is a Small Business Entity, use the simplified trading stock rules mentioned above)
- 30 June bank statements on all relevant loan documents
- Documents on new assets bought or sold, including the date you entered the contract and the date the asset was first used or installed ready for use
- Payroll reconciliation
- Superannuation reconciliation
- Cash book (if applicable)
- 30 June statements on any investment or operating accounts

And, if we are preparing your individual income tax return:

- PAYG Payment Summary
- Tax statements of managed investment funds
- Interest income from banks and building societies
- Dividend statements for dividends received
- For share sales or purchases, the purchase and sale contract notes
- For real estate sales or purchases, the solicitor's correspondence for the purchase and sale
- Rental property statements from real estate agent and details of other expenditure incurred
- Work related expenses
- Self-education expenses
- Travel expenses
- Donations to charities
- Health insurance and rebate entitlement
- Family Tax Benefits received
- Commonwealth assistance notices
- Medical Expenses (if these relate to disability aids, attendant care or aged care services)
- IAS statements or details of PAYG Instalments paid
- Details of any transactions involving cryptocurrency (e.g., Bitcoin)
- Details of any income derived from participating in the sharing economy (e.g., Uber driving, rent from AirBNB, jobs completed through Airtasker etc.)
